JOURNAL OF ELECTROANALYTICAL CHEMISTRY AND INTERFACIAL ELECTROCHEMISTRY

Vol. 241 Nos. 1 and 2 February 10, 1988

CONTENTS

Examination of staircase, normal pulse and differential pulse voltammetry at inlaid ultramicroelectrodes using a computerized multi-time-domain measurement method
W. Thormann (Tucson, AZ, U.S.A.), J.W. Bixler (Brockport, NY, U.S.A.), T.F. Mann and A.M. Bond (Waurn Pounds, Australia) 1

Electroanalytical investigations. Part VIII. The use of an expanding simulation space in the simulation of electrochemical reaction–diffusion models with orthogonal collocation
P. Urban and B. Speiser (Tübingen, F.R.G.) 17

Theoretical study of the chronopotentiometric response with programmed current of electrode processes with regeneration mechanisms
J. Galvez, F. Robles, J. Zapata (Murcia, Spain) and S.-M. Park (Albuquerque, NM, U.S.A.) ... 33

A unified model of the adiabatic reactions of electron transfer at metal electrodes
A.M. Kuznetsov (Moscow, U.S.S.R.) 45

The charge separation process in non-homogeneous electrolyte solutions
S. Mafé, J.A. Manzanares and J. Pellicer (Valencia, Spain) 57

A computer simulation of nucleation
J.H. Sluyters, E. Bosco and M. Sluyters-Rehbach (Utrecht, The Netherlands) 79

Adsorption in double potential step chronocoulometry
J. Puy, M. Pla, F. Mas and F. Sanz (Barcelona, Spain) 89

Ab initio cluster model approach to the chemisorption of hydrogen on mercury
M. Blanco, J. Rubio and R. Illas (Barcelona, Spain) 105

Determination of stability constants from polarographic anodic signals for metal complexes with some S-containing ligands
M. Esteban, E. Casassas and L. Fernandez (Barcelona, Spain) 113

Quantitative analytical assay of small amounts of technetium by stripping chronopotentiometry at a glassy carbon electrode
H. Ruf (Karlsruhe, F.R.G.) 125

Charge transfer across a polymer gel/liquid interface: the polyvinyl chloride + nitrobenzene gel/water interface
V. Mareček (Prague, Czechoslovakia) and M.P. Colombini (Pisa, Italy) 133

Mechanisms of formic acid, methanol, and carbon monoxide electrooxidation at platinum as examined by single potential alteration infrared spectroscopy
D.S. Corrigan and M.J. Weaver (West Lafayette, IN, U.S.A.) 143

Electrochemical oxidation of CO on Pt in acidic and alkaline solutions. Part I. Voltammetric study on the adsorbed species and effects of aging and Sn(IV) pretreatment
H. Kita, K. Shimazu and K. Kunimatsu (Sapporo, Japan) 163

Reactivity of carbonylmanganese radicals toward tributyltin hydride. Kinetic analysis of the anodic oxidation of $Mn(CO)_3[P(OPh)_3]_2^-$
C. Amatore (Paris, France), D.J. Kuchynka and J.K. Kochi (Houston, TX, U.S.A.) 181

Reversible redox, hydrosulfurization and anodic oxidation of chemisorbed thiophenols. A comparison at platinum and gold electrodes
B.G. Bravo, S.L. Michelhaugh and M.P. Soriaga (College Station, TX, U.S.A.) 199

Interpretation of polyazulene electropolymerization considering faradaic current efficiency and capacitive current effects during the growth and redox switching steps
S. Bruckenstein and J.W. Sharkey (Buffalo, NY, U.S.A.) 211

Simultaneous EPR electrochemical measurements on polypyrrole in ambient temperature ionic liquids
J.F. Oudard, R.D. Allendoerfer and R.A. Osteryoung (Buffalo, NY, U.S.A.) 231

(continued on p. 3 of cover)

Contents (*continued*)

Photocurrent kinetics during electron emission from a metal into an electrolyte solution. Part IX. Electrode reactions of the intermediates generated in the bromate ion reduction on mercury
V.A. Benderskii, A.G. Krivenko (Chernogolovka, U.S.S.R.) and N.V. Fedorovich (Moscow, U.S.S.R.) 247

Electrokinetics of the reduction of chromium(VI) ions entrapped in chromium-modified passive iron electrodes
C.D. Pallotta, R. Gonnet and E.J. Calvo (Buenos Aires, Argentina) 265

Differential pulse polarographic studies of copper(II)–polyamine complexes at low ligand concentrations
N.E. Schmidt, J.H. Pan and R.H. Philp, Jr. (Columbia, SC, U.S.A.) 281

Derivation and experimental verification of approximate explicit equations in differential pulse polarography. Part III. Diagnostic criteria for characterization of first-order processes
J.M. Rodríguez Mellado, M. Blázquez (Córdoba, Spain) and M. Domínguez (Sevilla, Spain) .. 291

Electrochemical reduction of 4,4-dimethyl-1-phenyl-1-penten-3-one
M.A. Almirón, L. Camacho, E. Muñoz, J.L. Avila and J.V. Sinisterra (Córdoba, Spain) 297

Electrosorption of hydrogen and sulphuric acid anions on single-crystal platinum stepped surfaces. Part I. The [110] zone
N.M. Marković, N.S. Marinković and R.R. Adžić (Belgrade, Yugoslavia) 309

Coadsorption of Bi(III) and Cl^- at a mercury electrode
Š. Komorsky-Lovrić, M. Lovrić and M. Branica (Jülich, F.R.G.) 329

Radiotracer study of the adsorption of taurine at a platinized platinum electrode
G. Horányi and E.M. Rizmayer (Budapest, Hungary) 343

Short communication

Oscillations during electrolysis of alkaline iodide + iodate solutions
E.V. Radkov and L.G. Ljutov (Sofia, Bulgaria) 349

Preliminary notes

Nucleation rings of $Ag_7O_8NO_3$ around dissolving silver crystals
G.D. Adžić, A.R. Despić and D.M. Dražić (Belgrade, Yugoslavia) 353

An in-situ FTIR study of the electroreduction of CO_2 by CoPc-coated edge graphite electrodes
P.A. Christensen, A. Hamnett and A.V.G. Muir (Oxford, Great Britain) 361

The influence of the crystallographic orientation on the double layer parameters of the Au/dimethylsulphoxide interface
Z. Borkowska and A.Hamelin (Meudon, France) 373

The photovoltaic effect of an insulating polymer hybridized p-Si solar cell
S. Yamamura and H. Kojima (Osaka, Japan) 379

Evaluation of pit volume by measurement of corrosion potential fluctuations for type 304 stainless steel
S.-I. Magaino (Yokohama, Japan), T. Osaka and A. Hirata (Tokyo, Japan) 385
